HTC HD2 Tone

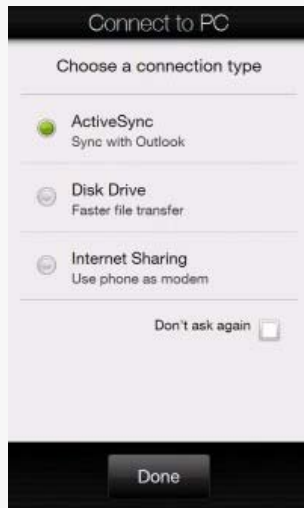

BOOKMARK

Custom HTC HD2 tones

In this tutorial you will teach you how to set .wav files as your tones on the HTC HD2 phone. Tones could be new emails, sms, voice mail or missed calls. Its very simple to do, nothing complicated about any one new to this device will be able to follow and duplicate my results.

Using the USB cable connect the phone to the computer. With the cable connected Select ActiveSync

Open MyComputer and select your device.

I recommend putting the music on a storage card if you have one. After opening the HD2 you will see two folder if you have a storage card.

Open the storage card, this will put you in the main directory. Download the .zip file below The tone is for a new email.

[CLICK HERE TO DOWNLOAD FILE](#)

Download the file and place it into the main directory. This will be the storage card or / directory.

Click on **Start** located at the top of the main screen.

Click on **Settings**
